To explain kindness to children:

Tell them examples of when someone helped you, cared for you and shared something with you and how you felt.

Example,

You felt happy when your child helped you with watering the plants.

You felt good when someone packed lunch for you to have at work.

You felt loved when your child shared a fruit bowl with you.

How to help your child

1. Ask them if anybody helped them or shared something with them.
2. How did it feel then?
3. Ask if they have done the same for others.
4. Help them come up with three things where they can help or care for someone, and share something.
